**Workshop A**

**Re-engaging Your Team**

Workplace engagement is defined, in a broad sense, as the nature of the relationship between an organization and its employees and is characterized by employee commitment, motivation, inspiration, satisfaction, etc., or the lack of those elements. This presentation focuses on the importance of engagement, strategies and practices that support it, and identifying things leaders can influence to increase engagement or address disengagement. All levels of the organization need to be involved with supporting the outcomes associated with positive workplace engagement. We will discuss the strategies, along with practical tools, to implement this into your organization.

**Presenter:** Ed Kiefer, Training Supervisor, Easterseals MORC and John Williams, BA Business Consultant
